RE: Lead-Time Impact and Recovery

Dear Valued Customer,

Channell is currently experiencing slightly longer lead times and delayed ship dates for some fiber optics products and orders as a result of the recent Corona Virus outbreaks in the APAC region.

We have received communication from our supplier(s) that lead-times are targeted to return to normal within the next few weeks. Please contact your local sales manager and/or customer service representative for more information on the status of specific products and orders.

Thank you for your business and continued support in Channell products and solutions.

Best Regards,

Raymund Chua

Head of Product Management – Optical Division Americas
